DETAILED ACTION

Priority

1. Acknowledgment is made of applicant's claim for foreign priority based on an application filed in Canada on March 27, 2003. It is noted, however, that applicant has not filed a certified copy of the 2,424,320 application as required by 35 U.S.C. 119(b).

Claim Objections

2. The claims are objected to because the lines are crowded too closely together, making reading difficult. Substitute claims with lines one and one-half or double spaced on good quality paper are required. See 37 CFR 1.52(b).

Claim Rejections - 35 USC § 112

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

4. Claims 17-21 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 17-21 depend from canceled claim 12. Accordingly, the claims 17-21 have not been further treated on the merits.

Claim Rejections - 35 USC § 102

5. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

6. Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by Moe et al. 4,819,981.

Regarding claim 1, Moe et al. '981 discloses a mechanical lift system that is designed to open and close a truck topper (24) from its side position (Figures 8 and 9) by means of hinges (36 and 44-make up the hinge) and a power lift arm (62).

7. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Micknowicz 5,403,061 shows a lift system to open and close a truck cap from its side position by means of hinges and a lift arm.

8. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Lori L. Coletta whose telephone number is 571-272-6658.
